Radio Station CJLS

Gateway Broadcasting Company Limited

Yarmouth, Nova Scotia

May 5, 1961

Mr. S. R. Morss
R.R.#3
Bradford, Mass.

Dear Mr. Morss:

Received your letter of May 1 with regard to hearing CJLS, 1340 Kilocycles, 250 Watts, on April 28, 1961 during Conelrad Test.

I wish to confirm your report and I may add your times are exactly simultaneous with our Log. I wouldn't have any idea what caused the hum at 5.06 and our transmitter reports excellent transmission for that day.

I noted your letter was addressed to Mr. Gene Alton who is no longer with CJLS. He is now working in Television in Montreal and has been for the past few years.

Thanks for your letter and I hope this note is suffieient confirmation.

Yours truly,

J. ALFRED DOUCETTE
Chief Staff Announcer
